ARRESTS MADE IN NEW PROBE OF LIQUOR CASE

Two Held for Connection With Flow of Whiskey From Troy Source

Cleveland, Feb. 20.—With one Cleveland man, whose name was withheld under arrest and a warrant in the hands of secret service agents for two others, said to live in or near Columbus, developments were expected to come quickly today in the new probe into the flow of whiskey from the Hayner distillery at Troy, O., into the hands of bootleggers in northern Ohio.

While District Attorney A. E. Bernstein, Mrs. Mabel Walker Willebrandt and secret service agents maintained the strictest secrecy regarding their plans, it was believed that the renewed investigation dealt not only with the distribution of Hayner whiskey to bootleggers through the Armand Drug and Candy Company here, but that the general problem of prohibition enforcement in Ohio would be investigated and greater vigilance required of all charged with the enforcement of the dry law.

Developments came with startling suddenness. Mrs. Willebrandt accompanied by experts in dry crusades from the department of justice, arrived here unheralded yesterday and immediately went into conference with District Attorney Bernstein. The conference continued throughout the day without intermission for lunch, and was resumed this morning.

SARTAIN AND RIEHL ARE FOUND GUILTY

Convict Wins Back Place In World Playing Violin

Fall River, Mass., Feb. 20.—"Phil" Thorp's mother has been sad for years over the downfall of the son she loved so dearly—her only son—but at last "Phil" has a place in the world again.

It was Mrs. John V. Thorp's boy, "Phil," who thrilled radio fans of the east and middlewest when he played the sweet strains of "Salut d'Amur," on his violin from radio station WEEI, broadcasting from state prison at Charlestown.

His gray haired mother was listening in here.

As "Phil" played the love song to his mother, radio listeners said the soul of an artist was in the piece.

"I'm happy and proud that Phil has brought happiness with his violin," said Mrs. Thorp today. "At heart, my Phil is a good boy. He has made his mistakes and he is paying the

penalty. Phil was always musical. He began taking violin lessons when he was only six years old. He practiced on his violin until he was thirteen.

"I love to hear him play."

"Salut d'Amur" is my favorite piece.

"Phil is leader of the orchestra at Charlestown and had worked hard with the men. Other members of the orchestra have mothers and they play for their mothers too. When I visit my son and his father visits him, we both talk about his work with his orchestra and it gives us all much joy. My boy may be shut off from the rest of the world, but he's a great artist just the same."

Phil Thorp formerly played with an orchestra in Huntington, and is serving life imprisonment for the slaying of a taxicab driver there in 1916.

JURY ACQUITS FLETCHER IN BRIBERY CASE

Verdict is Returned Friday In Atlanta Prison Trial

Atlanta, Ga., Feb. 20.—Albert E. Sartain and Lawrence Riehl were found guilty of conspiracy to accept and solicit bribes, in connection with Atlanta federal penitentiary scandal case, by the jury which came to a decision this afternoon.

The jury found L. J. Fletcher, one of the trio tried jointly for the offense, not guilty. The men were alleged to have conspired to solicit and accept bribes from prisoners at the penitentiary and after a long trial, the jury was sent to bed Thursday night and resumed deliberations this morning.

Atlanta, Ga., Feb. 20.—The jury which heard the evidence in the trial of Albert Sartain, L. J. GENERAL WILL STAND FIRE ON PLANE PROGRAM

Refuses Civil Job—Demo- stration of Air Chief Will Stand

Washington, Feb. 20.—Hitting back at his critics, Brigadier General Wm. Mitchell today told the aircraft investigating committee that the reason the battle ship Washington was not sunk from the air in the recent bombing test was that no real explosive bombs were used.

Washington, Feb. 20.—Developments in the now famous airplane controversy came swiftly today.

Brigadier General William Mitchell, assistant chief of the army air service, around whom the battle has centered, reaffirmed his intention not to resign under fire, saying that he would remain in the service as a colonel and "fight every inch of the way for an adequate air force."

War department officials have decreed that Mitchell must discard his stars for the colonel's eagles after March 26, when his present commission expires.

Secretary of War Weeks and the army general staff, angered over the "flying generals" testimony before the house aircraft committee that America is practically helpless from attack have definitely persuaded President Coolidge that Mitchell, "for the good of the service" must go, it was learned.

Although recalled by the committee, Weeks announced that he would be unable to testify before next week, assigning important business before the department as his reason. The committee wants to question Weeks about a war department statement that the army has almost 1200 effective planes. Of these, however, Weeks admitted that but 25 are in first class fighting shape. Mitchell has contended that there are but 19 planes that can be used in battle.

From the White House and war department continued to come denials that Mitchell was to "be called on the carpet" by the president. This was in face of a statement by the committee that it had information from a "reliable source" that Mitchell was to be demoted at the request of Secretary Weeks and Wilbur.

Turning aside temporarily from the army, the committee today delved into the naval air service, examining officials from the navy bureau of aeronautics. These men admitted that the navy has "but two 'first line fighting planes,' and that such serious defects have been found in the newest type of combat ship that orders have gone forth not to attempt to fly them."

Detroit, Feb. 20.—Brigadier General William Mitchell, who is reported to be facing demotion for his testimony at the aircraft investigation, will see the fight through to its conclusion, he indicated in a telegram to Captain Edward V. Rickenbacker, at Detroit.

Mitchell was acquainted with Captain Rickenbacker's offer by wire of a position here at higher than his army pay, "plus full appreciation of your efforts and ability." His reply received from Washington today is as follows:

"Very many thanks for your kindness. It is very greatly appreciated. I have my work pretty well cut out for the next two or three years until we get a separate air service. Again many thanks and best regards. 'Mitchell'."

Rickenbacker, war ace, and manufacturer, recently endorsed Mitchell's stand in testimony at the Washington aircraft investigation. When Rickenbacker returned to Detroit and learned of the disciplining which Mitchell is said to face, he is said to have immediately wired the officer a birth in civil life.

The suspension followed an inquiry by an inspector of the department.

GAZETTE AND REPUBLICAN PICK ALL-STAR COURT TEAMS FROM SUNDAY SCHOOL LOOP

Heaton and Smith were the two best forwards in the league and because of their fine floor game and dexterous eye for the basket they are placed on the first team. Without their services the Friends Church team would have finished at the bottom of the heap.

In selecting a center it is necessary to find one with height, reach, speed and ruggedness. The writer picked Prugh and he was all these qualities with the exception of height. In addition to having a good eye for the sack he was a consistent player and was a good defensive man.

Clemmons of the Presbyterians is given the call at one of the guard positions while Paul Spahr is his running mate. The first named, although rather light, was fast and had a great knack of locating the basket. He played well at running guard. Paul Spahr was cool and consistent and always on the job. His flashy offensive and defensive play was good.

On the second team North of the First M. E., Morton of the Trinity M. E. got the call at the front positions. Both did much to keep their respective teams on top.

Howard Jordan of the Trinity M. E. gets the call at center. He was fairly fast and he played like a whirl.

W. G. Robinson, Jackson, Mich., district representative of the National Recreation Association, will deliver a talk on "Playground Recreation and Park Thoughts," at the session.

Following the meeting, it is the hope of the association to set a day for a city-wide drive for funds to equip the park site with a lagoon, gravel walks, rustic bridges and to plant trees, build a tennis court and purchase playground equipment.

A goal of about \$10,000 has been set by the association, for the drive. Mr. Flynn can not negotiate for the purchase of the site to give to the association unless it can be guaranteed that sufficient funds can be raised to carry the beautification of the park project to a successful conclusion, according to T. H. Zell, president.

Providing the money is raised, the one year program arranged by association members will be carried out. It is planned to plant the site in trees, build the lagoon, decorate the land with shrubbery and install gravel walks in the first year.

Landscape artists viewing the proposed site are enthusiastic over the prospects and have acclaimed the ground as an ideal location for a park.

W. F. Hutchison, of Philadelphia, landscape gardener for the southwestern region of the Pennsylvania Railroad together with Mr. Matthews, of Cincinnati, supervisor of parks for the Cincinnati division of the Pennsylvania, were recently conducted over the grounds and declared it to be an ideal site for a park.

Mr. Hutchison made an offer to the association to assist in laying out plans for the landscape gardening for the park.

CENTRAL TOSSERS BEAT ROOSEVELT TO AVERAGE GRID LOSS

BY L. J. WONES

With each man taking his turn in putting the ball into the basket Central High defeated Roosevelt at Dayton Thursday evening by a 26 to 22 count before a large crowd.

Central played nice ball throughout. The locals had forty-four shots and of this number caged an even dozen fielders.

The game was fast and thrilling throughout and the score was tied six times. Both teams played clean ball and only fifteen personal fouls were called during the melee. Holton, Central guard was ejected from the game late in the fourth quarter.

The entire Central team played well and passed the ball nicely especially in the last half. They had some

tough luck with their shots at times as did the losers.

Perrine was high man with three field goals and a foul giving him a total of seven points. Huston was runner up with a pair of fielders and one foul. Holton played nice ball at guard and held Bollechino, Roosevelt's crack forward to three field goals. Holton also located the net twice from the field.

Bollechino and Baker at forwards starred for the losers. The former hit the net three times from the field and dropped in two from the free throw line while Baker got a quartet of baskets from the field.

MOVIES ENCIRCLING THE WORLD

AMERICAN motion picture film footage exported to foreign countries during the first nine months of last year was more than enough to mark the course of the World Fliers in their circling of the globe. In the aggregate it would have made a celluloid ribbon 33,000 miles in length.

American-made motion pictures encircle the earth and are shown in practically every civilized country—and then some. Less than a dozen countries, all of them of minor importance, out of more than a hundred markets were not in the list of customers to whom direct shipments were made in 1924. And wherever American films are shown, from Norway to South Africa; from Portugal to Japan, American-made picture machines are also found. During the months referred to Government statistics show that we exported \$6,545,000 worth of motion picture film—174,000,000 feet—the quantity being more than seventeen percent greater than was exported during the entire year of 1923.

It seems that our best markets for negatives are England, France, Italy, Mexico, Germany and Argentina while the best customers for positives ready for exhibition are Canada, Australia, England, Argentina, Brazil, Japan, Mexico, Cuba, New Zealand, Denmark, British South Africa, India, Chile, the Philippines, Sweden and Spain.

What is there under the sun that America is not furnishing to other countries in such quality and quantity that she stands out pre-eminent as the greatest industrial producer on the face of the globe?

OUTLOOK FOR MONEY

INCREASED commercial demand for funds in 1925 unquestionably would result in higher money rates than those which prevailed during a considerable part of 1924. The low rates of last year were the combined result of gold inflow, dull business, and Federal reserve bank operations and may therefore be regarded as to some extent subnormal. Far from being cause for concern, moderate advances in money rates are a healthy symptom, and added factor justifying confidence in the business outlook.

In connection with the current money situation certain aspects of the position of reporting member banks and of the Federal reserve banks and some phases of the gold question merit special attention. During the year the total of net demand and time deposits of about 740 reporting banks in leading cities increased two and three-quarter billions of dollars. Of this amount over two billions were absorbed about equally in loans and discounts and investments, the remainder being utilized in reduction of borrowings at the Federal reserve banks and for added reserve requirements.

Holdings by the Federal reserve banks of discounted bills are \$348,000,000 lower than a year ago and reserve notes in circulation have been reduced by \$383,000,000. Total earning assets of the twelve Federal reserve banks are about the same as a year ago. The decline in holdings of discounted bills has been largely offset by increased holdings of United States Government securities. Since midsummer, bills bought in the open market have increased greatly but the total on December 31, 1924 was only slightly higher than on the nearest corresponding date a year ago, a reflection of the seasonal character of the movement.

Latterly rediscount facilities have again come into use and as business expands it will naturally follow that recourse will be had to the Reserve banks. This is in nowise disturbing, for the system not only has large reserves but can at will increase its gold holdings by gradual absorption of part of the gold now in circulation. The period of extremely low money rates is over but no combination of circumstances that can be foreseen would result in high rates as they are generally understood.

NATURE'S LAW

Well you can argue till the crack of doom
And point your finger to the stubborn facts,
But unconcerned the roses come to bloom
And silently the law of nature acts.

The long admitted two and two make four
Thistles breed thistles whereso'er they grow,
Chance does not bring contentment to your door,
Fate is not fashioned by the dice you throw.

Folly and trouble travel hand in hand
Wisdom is never easy to attain;
Who builds his castle on the shifting sand

Shall have but loss and wreckage for his pain.

For ages long despair has followed sin,
Grim nature sets her price and takes it, too;
However much the shameful seem to win

Only the strong shall see the battle through.

The wisest children come from parents wise,
On honest conduct happiness depends,
That blissful ignorance which blinds men's eyes

In sorrow and distress always ends.

Miss C.: "Uncooked Fudge: Beat one egg, add to it a pinch of salt and two tablespoons of sweet cream (or evaporated milk) and beat again, then flavor with one teaspoon of vanilla extract and gradually add one pound of confectioners' sugar. In the top of a double boiler, over simmering water, melt together one tablespoon of butter and one-fourth pound of unsweetened cake chocolate; add this hot mixture to the cold mixture, and continue to beat until hard enough to flatten into a buttered pan. Cut in squares. Nuts or raisins may be added to this candy if desired during the last beating process. This fudge is delicious, but the only trouble with it is that after a week it becomes terribly hard (but not crumbly)."

M. S.: "My Corn Muffins: Cream one-fourth cup of butter with one-half cup of granulated sugar; add two

beaten egg yolks and one cup of sweet milk. Now sift together two cups of ordinary flour, one cup of yellow corn meal, four teaspoons of baking powder and one-half teaspoon of salt, then stir this dry mixture into the wet mixture, and fold in two stiffly-whipped egg whites. Turn into a buttered muffin pan and bake for 20 minutes in a hot oven. Here is another good recipe:

My Fruit Cake: Cream together one and one-half cups of shortening and two cups of granulated sugar; add one small cup of molasses, three beaten eggs, one cup of either sour or sweet milk, and five cups of bread flour sifted with six teaspoons of baking powder and one teaspoon of soda. Beat the batter well, then add two teaspoons of ground allspice, three cups of seedless raisins, (flour them before adding) as much finely shaved citron peel, orange peel and lemon peel as you desire, turn all into a greased cake pan, and bake about 50

Today's Talks

LIVE MEN

The worth of the body is in its action. A mere so many pounds of flesh and bone means little. Weigh any human being and you get this. Each body is like a neat kit of tools. Ready for use. Rightly applied you show to the world the value of each separate item, brain, hands, legs, heart. And the more intelligence you employ in the handling of each tool you possess, the finer does your work loom.

What a simple, trivial thing a mere body is anyway! But let it be a Cromwell body, a Lincoln body, or that of an Edison—and behold the achievements of ordinary possessions made unique, reshaped and given new standing.

Often many of the lights of life have to be snuffed out by the watching God so that folks may awake to the fact that light is a golden gift. And sometimes He takes a whole life and darkens it in death that it may live!

I have been reading the lives of three men recently who were so

little appreciated while they lived that each often contemplated suicide. They wrung their souls for the precious blood into which they dipped immortal pens—and then having done a long day's work, closed their eyes for sleep and rest. But they never awoke in the morning to find themselves either famous or appreciated.

How alive they are today, though. How their voices sweeten the atmosphere of our own days and make each new task something to be attempted in better heart and with more courage.

There is nothing so immortal as a great thought—executed.

VACCINATION MADE PERMANENT ORDER IN PUBLIC SCHOOLS

Vaccination of all school children was made a permanent requirement of all children now in school and all children entering school in the future, by the terms of a resolution passed Thursday night by the board of education.

The resolution is permanent assurance that the vaccination order placed in effect at the request of health authorities more than a week ago to check the spread of an incipient smallpox epidemic, will not be rescinded.

The resolution makes a certificate of vaccination from a reputable physician a permanent requirement for entrance in the public schools of the city unless such a certificate is already on file. The vaccination order as originally adopted required vaccination as a temporary measure, and several children have remained away from school until the epidemic should pass rather than submit to vaccination. The board of education feels the present arrangement will prevent the spread of an epidemic among school children in the future.

How to Tell a Woman's Age By Her Hands

A noted beauty specialist recently said that she could invariably judge a woman's age by her hands. Worry and hard work often shows in the hands when it does not show in the face. For this reason more attention should be given to the hands as they are really the true marks of refinement and the tellers of our age. Any woman can have beautiful, white, soft, pretty hands, regardless of the work she has to do, if she will simply spend a minute or two just before retiring, rubbing a little plain ice-cream on them. In the morning she will be greatly surprised at the pleasant transformation that has been wrought by even a single application. Ice-cream is made from a Japanese product that is simply marvelous for its beautifying properties whether used on the hands or face. Regardless of what kind of work a woman does, she should have pretty hands. As the hands if neglected are bound to show the hard work and worry of our lives. A few applications will actually make any woman proud of her hands and skin. Ice-cream costs little and is sold and recommended by good druggists everywhere.

What folly to suffer—Colds

A cold can be checked in 24 hours. The fever and headache can be ended. Even La Grippe can be stopped in 8 days.

Millions have proved that. Your druggist guarantees it. Your own neighbors will certify it. Then why let colds linger? They mean both discomfort and danger. Millions are wrecked by results of colds.

The right way, the best way is with Hill's Cascara-Bromide-Quinine. The result of years of research.

A treatment so perfect that 25 years have developed no way to improve it. It stops a cold

in a day. But it does far more. It removes the poison caused by colds. It restores vitality to the whole system. In the quickest, surest way men know it brings one back to normal.

Millions have proved that. Your own neighbors are among them. No one who knows Hill's could ever be induced to use anything else for a cold.

Don't take chances with a cold. Get the best help men know, and the genuine.

And start promptly. Every hour you delay makes the cold harder to cure.

BOYS ESCAPE FROM OFFICER ON TRIP TO REFORM SCHOOL

Ralph Terrell and Ralph Coates, both aged 14, escaped from J. W. Rogers, field man of the Boys' Industrial School, Lancaster, O., at the Pennsylvania Railroad depot Thursday afternoon where he was taking them to continue indefinite terms on juvenile delinquency charges.

A third boy, Robert Terrell, failed to make good his attempt to escape and was taken to the reformatory. Juvenile Court authorities instituted a search for the two boys Friday.

As Rogers led the boys into the station, the three scattered in different directions and he was unable to recapture but the one. Rogers wired local authorities from Columbus of the escape.

The youth were re-committed to the Lancaster institution several weeks ago in Juvenile Court when they admitted aiding in the burglaries of the Dunkel grocery. They had previously been paroled from Lancaster.

Church, a large body of friends accompanied the body of Russell Conner to Jamstown, where another service was held at the Church of Christ, with the pastor in charge.

EFFORT IS MADE TO GET DIMMITT CASE IN SUPREME COURT

Calvin Dimmitt, accused of illegal parentage has filed a motion in the State Supreme Court through his attorney, L. T. Marshall, for an order directing the Greene County Court of Appeals to certify its record in the case of The State of Ohio ex rel Helen Milburn.

Dimmitt lost a decision in both the Common Pleas Court and Court of Appeals and was committed to the Greene County Jail to serve a term. Attorneys for the girl brought suit against Dimmitt for non-compliance with the judgment and held that a \$500 bond put up for the defendant by D. O. Dimmitt and Charles Carroll, others named in the suit, should be forfeited.

The Common Pleas Court verdict favored the defendant in that he had served a term in jail. Attorneys for the plaintiff appealed the decision to the Appellate Court which reversed the Common Pleas decision.

An attempt is now being launched by Dimmitt to have the State Supreme Court give a ruling on the case. Attorneys Charles Darlington and Frank Dean represent the girl.

PULL DOWN HILL

Yorkville, Feb. 20—When King Winter scoffed the law of gravitation out of business here recently during a heavy snow, mule-power was used in restoring Sir Isaac Newton's popular statute to its old time power. Tracks leading beneath a mine tiple here were blocked so badly by snow that the cars could not be persuaded to drop down the grade as needed. Usually, a pinch bar moves them sufficiently without halting mine operations. When snow overcame the effect of the grade produced gravity, two mules were hitched to the big railroad godolias and the cars dragged to position.

SILHOUETTES TO BE USED FOR SERMON

The Rev. Wm. H. Tilford, of the Presbyterian Church, will use a rather different method of illustrating his sermon points next Sunday evening. He has prepared a number of cloth pictures sometimes called "Rag Pictures," including some silhouettes by the Austrian Artist Grosseck, which Mr. Tilford has copied and enlarged. The series also include several original silhouettes in cloth by the speaker. The impressions of the pictures are helped by the use of a spot light of different colors, which gives depth to many of these silhouettes. This service will start at 7:00 p. m.

LOTS OF COLOR

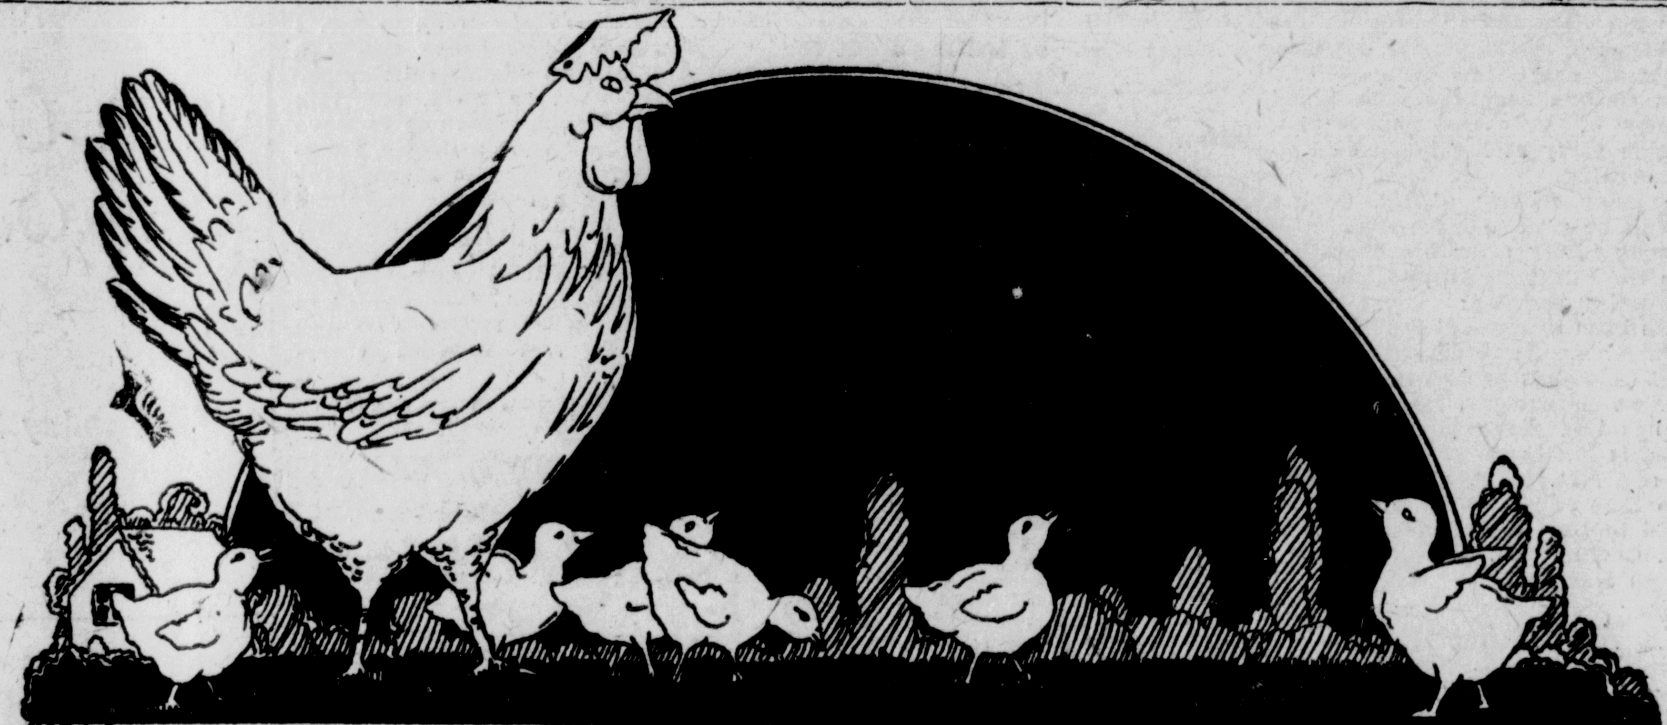

Columbus, Feb. 20—Color—lots of color—will prevail in the attire of the

well-groomed man this spring and summer, according to C. E. Dittmer, executive director, Ohio Retail Clothiers' & Furnishers' Association. From hat to ankles, the well-groomed man will resemble a sartorial kaleidoscope, Dittmer said. About 400 clothiers from all parts of Ohio, attending the three-day convention of the Ohio Retail Clothiers' & Furnishers' Association here, starting Feb. 23, "will learn finally, and definitely, of the spring trends in men's clothing, Dittmer asserted.

GASOLINE PRICE IS AGAIN SOARING UP

A third boost in the price of gasoline within the last few weeks was announced to motorists filling their gas tanks at local stations Thursday. Effective Thursday, the Standard Oil Company announced that the price of gasoline a gallon had been increased to one and one half cents. The latest price quotes the auto fuel at 20 1/2 cents per gallon.

The first increase several weeks ago raised the price one cent and a similar increase of one cent came closely on the heels of the first.

HARD BOILED PATTIES

So pleased were the readers with the results they obtained from my recipe on preparing a steak that they have requested more. So today I will tell how to make hard boiled patties.

Drop three eggs into a kettle of boiling water, being sure that you have the grocer's telephone number ready, so you can call him in case you find you have poultry instead of eggs.

Now it is very essential that you be very careful in taking out the eggs. A good plan is to take the kettle up to the bedroom, and after pulling back the covers and sheets, pour the water and eggs out on the mattress. In this way there will be no danger of breaking the eggs, nor scalding your hands. A little water won't hurt the mattress.

Now take a pound of lettuce and sprinkle well with insect powder, being sure that all grasshoppers are given the gate. Put the lettuce leaves in the electric washer and wash for three hours. Shake each leaf carefully and run through the clothes wringer. Then hang on nails to dry.

The lettuce is now ready to be prepared. Take it from the nails and lay it in the bath tub. Sprinkle with shavings of soap and fill the tubful of vinegar. Add two gallons of sugar and stir with a bean pole.

By this time the eggs should be ready for use. Take one at a time and place in a vise. Tighten the handle with care. Then play the "William Tell" overture on a mouth organ, while your husband shoots a hole through each egg with a bow and arrow.

The rest is simple. Take a large nail and a hammer and drive the yellow out of each egg, being sure not to disturb the white. Drive the lettuce into the center of the eggs and seal with sealing wax. Serve with an ax.

WE'LL HAVE RAIN BEFORE NIGHT!

There was an old woman who lived on a hill:
Who used to huck corn and take it to the mill:
The miller says that her corn was fine,
But she keeps it now and makes moonshine.

Perhaps you have a good recipe for something. Perhaps you make the most delicious pies in Xenia. Why not sell some of them? You can do it through Gazette ads on this page. Just phone 111 tomorrow.

MODISH MITZI—All Sorts of Scarfs Worn in all Kinds of Ways By Jay V. Jay

This is the scarf one can wear at almost anytime. It is of printed crepe georgette. Mitzi is wearing it in the evening though it can be worn for afternoon quite as well. Notice how she wears it, wrapped about her with the end flowing over her shoulder. It is fringed with a long hand knotted silk.

This is the dashing new French way of wearing scarfs. Knotted on the shoulder with a bow under one ear. This is a printed silk scarf. It is just a fairly narrow strip of silk, fetchingly tied by Mitzi. (Try it before your own mirror. It takes a good deal of practice to make perfect.)

This is the scarf that one meets in "a blue moon." It has quite a number of coronas in a light blue printed on it. The late eclipse probably had something to do with its inspiration. Well, anyway it is of crepe de chine and has a fringe on the end.

For the new mannish styles Mitzi has annexed an English "chequers" scarf. They are all wearing them—men as well as women. Such nice colors too; burgundy, blue, and a mottled blue. With the tailored coat or suit they are the very latest of the last words of fashion.

YOUNG MEN'S CLUB FORMED IN XENIA; QUARTERS LEASED

A young men's club, with fourteen members already enrolled and officers for the ensuing year installed, will meet Tuesday day evening at its quarters above the Greene County Auto Sales, West Main Street, for the first time to select a name.

The rooms were leased from Henry L. Binder, owner of the building, and consist of two large rooms and shower baths.

The club is composed of young men of the city and is not affiliated with any fraternities or lodges, it is said.

Painting and decorating work has been completed, and the lounge room furnished in a modern style. Shower baths have also been installed.

Officers were recently elected as follows: Robert Hamlin, president; Norbert McCallister, vice-president; Clark Beckerle, secretary-treasurer; and Wendell Smith, sergeant-at-arms.

Business meetings will be held every Tuesday night.

A campaign will soon be launched for members.

COMPANIES MUST FILE TAX RETURNS

All incorporated companies in the county must file personal property tax returns for 1925 by March 1 with the county auditor it was announced Thursday.

Failure to comply with this law will be followed by 50 per cent penalties, County Auditor R. O. Wead declared Thursday. As was the case on January 1, tax listing day, returns must be made accompanied by the general balance sheet.

Mailing of blanks to the nearly eighty-five incorporated companies in the county was made prior to January 1, but failure to file on the grounds that the company did not receive a blank will not be counted as a sufficient excuse, it is said.

Blanks may be obtained at the county auditor's office in the Court House on application. It was announced.

POSTOFFICE CLOSED

Because Washington's birthday, a legal holiday, falls on Sunday, this year, the post office will observe the holiday Monday and will close all departments except to dispatch mail as usual and take care of incoming mail. There will be no delivery by city or rural carriers that day. The lobby will be open all day as usual, according to C. S. Frazer, postmaster.

CULDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membrane and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. (Adv.)

—brings joy to you and your friends.

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body.

More red-blood-cells! S.S.S. aids Nature in building them by the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and going appearance.

WHO'S WHO AND WHAT'S HAPPENED

CYNTHIA AND JIM LELAND return from their honeymoon to his home town, where his mother promptly begins to try to make Cynthia over. She has accepted the girl merely on approval. Cynthia finds it difficult to get along with her sister-in-law.

LOUELLA GRAY, also, but likes her brother-in-law, Stanley. She meets

NOEL GARDNER while her husband is out of town on business partly concerned with some had investments that his mother has made. Cynthia finds that Gardner controls the stock which Madame Leland has bought and thinks worthless. Cynthia asks him to buy it back from Madame Leland and sell it to her, without letting anyone know.

TODAY'S INSTALMENT

XVIII—A STRANGE SITUATION

FOR a moment Cynthia did not know quite what to do as she faced Noel Gardner on the country club porch. Certainly it would be pleasant to play golf with him, and after his kindness of the morning, in saying that he would buy back from her mother-in-law which Madame Leland was so upset about. Cynthia felt that she could hardly refuse to let him join her and Cecile Malcolm in their game.

And yet she hesitated. Cecile had said quite frankly that she had known him well before he went abroad, but that she didn't know just how good friends they were now that he had returned. Perhaps Cecile wouldn't want to play with him. Perhaps she'd prefer to see him alone before she associated with him publicly. The dinner party of the evening before had not thrown them together enough to create any difficulty.

"I don't know—I'm waiting for Cecile," Cynthia told him, nervously.

"And you don't know whether she'll want me or not?" he asked with a smile. "I can answer for her, I think. I'm sure she won't object. But here she is now, if you'd rather put it up to her."

Cecile ran down the veranda, followed by a caddy with her clubs. She held out her hand to Noel eagerly.

"Noel—don't tell me that you're going to play with us!" she exclaimed with delight. Then to Cynthia: "Noel taught me how to play golf—as well as how to do many other things," with a sideways glance at him that was tinged with malice.

"And as in other things, you didn't need much teaching," he commented. "Shall we begin?"

Cynthia did not enjoy the game. There was another one being played by Cecile Malcolm and Gardner that she could not follow, a conversational game, filled with references to someone named "Helena," with little malicious threats on Cecile's part, followed by what seemed all too often appeals to the man, who obviously was quite uninterested in her, and rather inclined to be annoyed at her persistent attempts to interest him.

Cynthia was glad when the game was over. Gardner drove back to town in his own car, and Cynthia went with Cecile, who sat moodily in a corner, hardly speaking. She did volunteer one bit of information, however.

"I suppose you've heard of Helena, Noel's wife?" she asked. "Oh, you haven't? Well, they were married two years ago, eloped on the eve of her wedding day—she was to have married another man. Her people simply raved, of course. They didn't like Noel, he'd never amounted to

much, and the other man was one of the most influential in town. They were right about Helena and Noel—they couldn't get along at all, and last year she went to Paris with her father and mother, and later wrote Noel that she was going to get a divorce.

"He rushed over there, but couldn't make her change her mind. She divorced him, and now he's come back to try to brace up the business that he deserted when he hurried off after her. He's still in love with her, people say—oh, and they're right, too. I'm a fool!" she concluded abruptly, and turned to stare out of the window.

Cynthia was glad to leave Cecile when she arrived at home. She hurried into the house to see if there was any message from Jim. On the table in the hall was a letter; she tore it open, scanned its two pages hurriedly. He wrote to tell her what she had already heard from his mother, that he was going to be gone longer than he had expected, would probably go to Honolulu before he returned.

"It might not be a bad idea for you to close our house and stay with mother while I am away," he added. "The expense of keeping it open is considerable, and although I know that you find it hard to get along with mother, I'm sure that you will love her as I do when you know her

She was glad to have the first dance with Noel.

better, and be glad that you took this opportunity to get really acquainted with her."

Cynthia's eyes blazed. She had thought that Jim would suggest that she join him on the Honolulu trip, or at least would regret that she wasn't going to. Instead he calmly planned for her to stay with his mother!

There was to be a dance at her sister-in-law's that evening. She ran upstairs to dress for it, but first unlocked a portfolio that lay on her desk and did some rapid figuring on a desk pad.

"I could just make it," she reflected. "That is, if that stock Noel Gardner is going to sell me doesn't cost too much. And Jim certainly can't object if I use my own money!"

She was glad to have the first dance with him.

"Tell me," she began breathlessly. "Just how much will that stock cost?"

"Well—about ten thousand dollars."

"Then—then—" she thought for a moment. She could sell some of the bonds that her father had left her, and buy the stock. She could sell the rest, and carry out the plan she had made that afternoon.

"Do you know of any nice little apartment that are for rent?" she asked Gardner. "I must have one at once—just big enough for me and a maid."

"I certainly do!" he answered. "I've been planning to rent one that I—well, that I used to be interested in. If you'll let me, I'll show it to you tomorrow morning. May I call for you at ten?"

ARRESTS MADE IN NEW PROBE OF LIQUOR CASE

Two Held for Connection
With Flow of Whiskey
From Troy Source

Cleveland, Feb. 20.—With one Cleveland man, whose name was withheld under arrest and a warrant in the hands of secret service agents for two others, said to live in or near Columbus, developments were expected to come quickly today in the new probe into the flow of whiskey from the Hayner distillery at Troy, O., into the hands of bootleggers in northern Ohio.

While District Attorney A. E. Bernstein, Mrs. Mabel Walker Willebrandt and secret service agents maintained the strictest secrecy regarding their plans, it was believed that the renewed investigation dealt not only with the distribution of Hayner whiskey to bootleggers through the Armand Drug and Candy Company here, but that the general problem of prohibition enforcement in Ohio would be investigated and greater vigilance required of all charged with the enforcement of the dry law.

Developments came with startling suddenness. Mrs. Willebrandt accompanied by experts in dry crusades from the department of justice, arrived here unheralded yesterday and immediately went into conference with District Attorney Bernstein. The conference continued throughout the day without intermission for lunch, and was resumed this morning.

B. K. RITENOUR DIES THURSDAY AT HOME; ILL ONLY FEW DAYS

Bentley K. Ritenour, 60, prominent farmer and Greene County Superintendent for the Ohio State Highway Department, died at his home in Grape Grove, southeast of Xenia, Thursday night. Death was caused by pneumonia.

After spending several days in Xenia last week on business, Mr. Ritenour developed a heavy cold Saturday and pneumonia developed Tuesday night. His condition grew rapidly worse until his death.

In addition to managing a large farm and his highway work, Mr. Ritenour was a surveyor for twenty-five years. His farming work was carried on with the assistance of his two sons, Millard and Earl Ritenour who reside on adjoining farms. He was prominent in Democratic politics in the county and was a member of the Board of Elections for about twelve years, his term expiring several years ago.

Mr. Ritenour was born in Ross Township where he spent his entire life. He is survived by his widow, Mrs. Anna Ritenour, two sons, Millard and Earl and two daughters, the Misses Lucinda and May Ritenour both at home. One brother, Charles Ritenour, Ross Township and three sisters, Mrs. Heber Douthett, Xenia; Mrs. Laura Hutslar, Springfield; and Mrs. Anna Little, Grape Grove, also survive.

Funeral services will be held Sunday afternoon at 2 o'clock, at the residence in Grape Grove, with interment in Grape Grove Cemetery.

PROFESSOR DAWSON IS CRITICALLY ILL

Professor William M. Dawson, of Antioch College, Yellow Springs, who has been ill for several weeks, is at the point of death at Mt. Carmel Hospital, Columbus, according to word from the hospital, Friday morning.

A bulletin on his condition said he was "getting weaker." A previous statement said that his condition was grave and doubt was expressed that he would survive but a few hours. Dr. Dawson had been ill for some time with a complication of diseases and entered the hospital for an operation. Physicians made the incision but found pus on the liver and abandoned the operation.

Dr. Dawson is professor of German and philosophy of religions at Antioch, where he has taught for a number of years.

Convict Wins Back Place In World Playing Violin

Fall River, Mass., Feb. 20.—"Phil" Thorp's mother has been sad for years over the downfall of the son she loved so dearly—her only son—but at last "Phil" has a place in the world again.

It was Mrs. John V. Thorp's boy, "Phil," who thrilled radio fans of the east and middlewest when he played the sweet strains of "Salut d'Amur," on his violin from radio station WEEI, broadcasting from state prison at Charlestown.

His gray haired mother was listening in here.

As "Phil" played the love song to his mother, radio listeners said the soul of an artist was in the piece.

"I'm happy and proud that Phil has brought happiness with his violin," said Mrs. Thorp today. "At heart, my Phil is a good boy. He has made his mistakes and he is paying the

penalty. Phil was always musical. He began taking violin lessons when he was only six years old. He practiced on his violin until he was thirteen.

"I love to hear him play."

"Salut d'Amur" is my favorite piece.

"Phil is leader of the orchestra at Charlestown and had worked hard with the men. Other members of the orchestra have mothers and they play for their mothers too. When I visit my son and his father visits him, we both talk about his work with his orchestra and it gives us all much joy. My boy may be shut off from the rest of the world, but he's a great artist just the same."

Phil Thorp formerly played with an orchestra in Huntington, and is serving life imprisonment for the slaying of a taxicab driver there in 1916.

COLLISTER BILL TO BE REVIVED AFTER UNIQUE SITUATION

New Bill Would Name
Chaplain For Home
Here—Recess is On

Columbus, O., Feb. 20.—Both houses of the legislature are in recess today until Monday night, but clerks in the legislative reference department are working overtime preparing the flood of bills which will descend Monday night—the close of the bill introduction period.

An indication of the impending flood is found in the calendars of the senate and house for Monday night. More than fifty measures are scheduled for second reading and reference to committees in the house and more than a score of bills will be ready for similar action in the senate.

Following the deadline Monday night, introduction of bills will only be permitted by unanimous consent or by a three-fifths vote, except that members of the finance committees, who have spent most of their time thus far in the session in inspection visits to various institutions, will be permitted to introduce bills.

The Collister municipal home rule bill stands officially on the records of the house as defeated, yet on the same records, are recorded sufficient affirmative votes for its passage.

Probably never before in Ohio legislative history has a similar case as that presented by the Collister bill been recorded.

The bill, however, is not considered as having suffered final defeat. In fact, chances for its final passage are generally conceded to be good, and it probably will be passed after reconsideration next Tuesday.

The measure already has been passed by the senate.

The vote on roll call was 65 yes to 37 no, the affirmative vote lacking one of the necessary majority to pass it.

Before the vote was announced, Representative Walther, Cleveland, changed his affirmative vote to no, so he would be in a position to make a motion for reconsideration.

Other business then was taken up, but in the meantime friends of the bill induced Representatives Means, Jackson County, and Dartlett, Geauga County, who had not voted on the original roll call, to cast their votes in the affirmative. These two additional votes made the necessary 66 to pass the measure.

Proponents of the bill then sought to have the speaker declare the bill passed. Opponents objected and for almost an hour there was a parry and forth with the rules of the assembly.

Edward W. Hughes, parliamentarian, held that addition of the two affirmative votes passed the bill, even though they had not been recorded until after the result of the roll call had been announced.

Speaker Silver was doubtful and announced he would reserve final ruling until he had examined the rules more closely.

House bills number 369 and senate bills number 209. It is expected the number will be brought up to 700 Monday.

Appointment of a resident chaplain at the Xenia Soldiers' and Sailors' Orphans' Home is provided for in a measure favored by Representative Keifer, Clark County.

She is survived by a sister, Mrs. Samuel Harner, Sr., of Old Town and a brother, Stephen Campbell, of Yellow Springs; two sons, William Swigart of Middletown and Edward Swigart of Bebbrook and one daughter, Mrs. Mary Gray, with whom she made her home. A number of grandchildren also survive.

JURY ACQUITS FLETCHER IN BRIBERY CASE

Verdict is Returned Friday
In Atlanta Prison
Trial

Atlanta, Ga., Feb. 20.—Albert E. Sartain and Lawrence Riehl were found guilty of conspiracy to accept and solicit bribes, in connection with Atlanta federal penitentiary scandal case, by the jury which came to a decision this afternoon.

The jury found L. J. Fletcher, one of the trio tried jointly for the offense, not guilty. The men were alleged to have conspired to solicit and accept bribes from prisoners at the penitentiary and after a long trial, the jury was sent to bed Thursday night and resumed deliberations this morning.

Atlanta, Ga., Feb. 20.—The jury which heard the evidence in the trial of Albert Sartain, L. J. S. penitentiary here, was sent to bed at one o'clock this morning after having been unable to reach a verdict after seven hours deliberation.

MUSCLE SHOALS IS HANGING FIRE

Washington, Feb. 20.—The fate of the Underwood bill, for disposing of the \$150,000,000 Muscle Shoals project, hinged in the senate today upon a point of order raised by Senator Norris, Republican of Nebraska, leader of a group of government ownership advocates.

The issue will be decided by Senator Cummins, Republican of Iowa, president pro-tem of the senate, who can either overrule Norris' objection—thus paying the way for a final vote—or sustain it and throw the bill back into conference.

AMERICANS KILLED WHEN CROWDED TRAIN WRECKED AT MANILA

Manila, Feb. 20.—Three American army officers and three soldiers were killed and fourteen were injured today when a crowded tram car overturned at Corregidor.

The dead include Lieutenant R. E. Herring, Major John H. Hunter, Warrant Officer C. A. Carter and Sergeant J. T. Davidson.

The tram car crowded with passengers, had just started down a steep incline. The brakes refused to work and after dashing madly for a short distance the car was derailed and turned over.

GENERAL WILL STAND FIRE ON PLANE PROGRAM

Washington, Feb. 20.—Hitting back at his critics, Brigadier General Wm. Mitchell today told the aircraft investigating committee that the reason the battle ship Washington was not sunk from the air in the recent bombing test was that no real explosive bombs were used.

Washington, Feb. 20.—Developments in the now famous airplane controversy came swiftly today.

Brigadier General William Mitchell, assistant chief of the army air service, around whom the battle has centered, reaffirmed his intention not to resign under fire, saying that he would remain in the service as a colonel and "fight every inch of the way for an adequate air force."

War department officials have decreed that Mitchell must discard his stars for the colonel's eagles after March 26, when his present commission expires.

Secretary of War Weeks and the army general staff, angered over the "flying general's" testimony before the house aircraft committee that America is practically helpless from attack have definitely persuaded President Coolidge that Mitchell, "for the good of the service" must go. It was learned.

Although recalled by the committee, Weeks announced that he would be unable to testify before next week, assigning important business before the department as his reason. The committee wants to question Weeks about a war department statement that the army has almost 1200 effective planes. Of these, however, Weeks admitted that but 25 are in first class fighting shape. Mitchell has contended that there are but 19 planes that can be used in battle.

From the White House and war department continued to come denials that Mitchell was to "be called on the carpet" by the president. This was in face of a statement by the committee that it had information from a "reliable source" that Mitchell was to be demoted at the request of Secretary Weeks and Wilbur.

Turning aside temporarily from the army, the committee today delved into the naval air service, examining officials from the navy bureau of aeronautics. These men admitted that the navy has but two "first line fighting planes," and that such serious defects have been found in the newest type of combat ship that orders have gone forth not to attempt to fly them.

Detroit, Feb. 20.—Brigadier General William Mitchell, who is reported to be facing demotion for his testimony at the aircraft investigation, will see the fight through to its conclusion, he indicated in a telegram to Captain Edward V. Rickenbacker, at Detroit.

Mitchell was acquainted with Captain Rickenbacker's offer by wire of a position here at higher than his army pay, "plus full appreciation of your efforts and ability." His reply received from Washington today is as follows:

"Very many thanks for your kindness. It is very greatly appreciated. I have my work pretty well cut out for the next two or three years until we get a separate air service. Again many thanks and best regards. Mitchell"

Rickenbacker, war ace, and manufacturer, recently endorsed Mitchell's stand in testimony at the Washington aircraft investigation. When Rickenbacker returned to Detroit and learned of the disciplining which Mitchell is said to face, he is said to have immediately wired the officer a birth in civil life.

GOVERNOR ORDERS PROBE AT MANSFIELD

Columbus, Feb. 20.—Governor Donahy today will request Miss Belle Greve, of the division of charities, state welfare department to go to Mansfield and conduct an investigation of conditions at the Mansfield children's home. Among the major charges to be investigated, Miss Greve admitted, will be those concerning Arthur Hughes, son of Mrs. Emma Hughes. Hughes is married, lives at the home and both he and his wife are employed there. Miss Greve said she did not care to discuss other features of the investigation which is the result of the action of the state welfare department in suspending the certificate of approval of the home. The suspension followed an inquiry by an inspector of the department.

GAZETTE AND REPUBLICAN PICK ALL-STAR COURT TEAMS FROM SUNDAY SCHOOL LOOP

Gazette and Republican's All Star Team of High School League of Sunday School basketball teams.

BY L. J. WONES

First Team Second Team
Heaton (Friends) F North (First M. E.)
Smith (Friends) F Morton (Trinity M. E.)
Prugh (c) Presbyterians C Howard Jordan (Trinity M. E.)
Clemons (Presbyterians) G Mobley (Friends)
P. Spahr (First M. E.) G Chambliss (c) (Reformed)

Heaton and Smith were the best forwards in the league and because of their fine floor game and dexterous eye for the basket they are placed on the first team. Without their services the Friends Church team would have finished at the bottom of the heap.

In selecting a center it is necessary to find one with height, reach, speed and ruggedness. The writer picked Prugh and he was all these qualities with the exception of height. In addition to having a good eye for the ball he was a consistent player and was a good defensive man.

Clemons of the Presbyterians is given the call at one of the guard positions while Paul Spahr is his running mate. The first named, although rather light, was fast and had a great knack of locating the basket. He played well at running guard. Paul Spahr was cool and consistent and always on the job. His flashy offensive and defensive play was good.

On the second team North of the First M. E., Morton of the Trinity M. E. got the call at the front positions. Both did much to keep their respective teams on top.

Howard Jordan of the Trinity M. E. gets the call at center. He was fairly fast and he played like a whirl.

CAMPAIGN FOR FUNDS TO COMPLETE PARK LAUNCHED MARCH 3

The opening gun in the plans of the Recreation Association for a city park in the Dadds Addition, North Detroit Street, for which P. H. Flynn, local manufacturer recently donated ten acres to the association as a site, will be fired March 3, at a joint meeting of the Kiwanis and Rotary Clubs.

W. G. Robinson, Jackson, Mich., district representative of the National Recreation Association, will deliver a talk on "Playground Recreation and Park Thoughts," at the session.

Following the meeting, it is the hope of the association to set a day for a city-wide drive for funds to equip the park site with a lagoon, gravel walks, rustic bridges and to plant trees, build a tennis court and purchase playground equipment.

A goal of about \$10,000 has been set by the association, for the drive. Mr. Flynn can not negotiate for the purchase of the site to give to the association unless it can be guaranteed that sufficient funds can be raised to carry the beautification of the park project to a successful conclusion, according to T. H. Zell, president.

Providing the money is raised, the association members will be carried out. It is planned to plant the site in trees, build the lagoon, decorate the land with shrubbery and install gravel walks in the first year.

Landscape artists viewing the proposed site are enthusiastic over the prospects and have acclaimed the ground as an ideal location for a park.

W. F. Hutchison, of Philadelphia, landscape gardener for the southwestern region of the Pennsylvania Railroad together with Mr. Matthews, of Cincinnati, supervisor of parks for the Cincinnati division of the Pennsylvania, were recently conducted over the grounds and declared it to be an ideal site for a park.

Mr. Hutchison made an offer to the association to assist in laying out plans for the landscape gardening for the park.

MONEY AT WORK

Brief but Important Lessons in Finance Markets Stocks, Bonds and Investments

One of the most profitable investments which the average man can make at this time is one in "heat economy."

Trying to heat "all outdoors" during the winter months is one of the things which many men do, both unsuccessfully and unprofitably. Many millions of dollars and many millions of tons of coal are wasted every year in this way. There are a number of ways to curtail these heating losses.

Weather-stripping doors and windows is one method of cutting down the coal bills. This is especially effective in very cold climates. Insulating the heating pipes with a suitable material is another method of slashing heating costs.

The first method of reducing coal bills is to go over the furnace carefully and see that it is in good operating shape; then feed the furnace the sort of coal it was intended to burn. Learn how your own furnace should be operated. This information can be obtained in a clear, practical manner by writing the manufacturer. Furthermore, keep the temperature of the house around 68 degrees to 70 degrees Fahrenheit and judge this temperature by an accurate thermometer. It is expensive to get the family accustomed to a higher temperature. A few simple little "investments" like the ones outlined will make a surprising difference in heating costs.

EDITOR OF RAILWAY AGE WILL SPEAK

Samuel O. Dunn, editor of "The Railway Age" nationally known orator, will speak at the annual dinner of the Miami Valley Traffic Club, in the American Room of the Hotel Gibbons, Dayton, Thursday evening, February 26. His subject will be "The Future of Railway Regulation."

The same evening Madam Brita Beckman gave a concert in the College Chapel. The proceeds were given to the Library. The entertainment consisted of songs in the native costume of Swedish women and dramatic interpretations. She was accompanied by Miss Jessie Moore, pianist.

A lecture by Dr. J. C. Carpenter of Pennsylvania, was given Sunday evening in the Methodist Church, his subject, "The Hope of the Nation" was a message to the Christian people for Civic Righteousness.

CENTRAL TOSSERS BEAT ROOSEVELT TO AVERAGE GRID LOSS

BY L. J. WONES

With each man taking his turn in putting the ball into the basket Central High defeated Roosevelt at Dayton Thursday evening by a 26 to 22 count before a large crowd.

Central played nice ball throughout. The locals had forty-four shots and of this number caged an even dozen fielders.

The game was fast and thrilling throughout and the score was tied six times. Both teams played clean ball and only fifteen personal fouls were called during the melee. Holton, Central guard was ejected from the game late in the fourth quarter.

The entire Central team played well and passed the ball nicely especially in the last half. They had some

tough luck with their shots at times as did the losers.

Perrine was high man with three field goals and a foul giving him a total of seven points. Huston was runner up with a pair of fielders and one foul. Holton played nice ball at guard and held Bollechino, Roosevelt's crack forward to three field goals. Holton also located the net twice from the field.

Bollechino and Baker at forwards started for the losers. The former hit the net three times from the field and dropped in two from the free throw line while Baker got a quartet of baskets from the field.

CONVERSATION ART

SUBJECT OF PASTOR

ADDRESSING CLUB

"The Lost Art of Conversation" was

the subject of an interesting after dinner

address given by Dr. C. P. Prouditt

before members of the Xenia Business

and Professional Women's Club

Thursday evening at the K. of P. Hall.

The address followed a dinner served

by the Pythian Sisters. The table

decorations were suggestive of Wash-

ington's birthday and were carried

out in red and white.

Dr. Prouditt prefaced his address

by a tribute to the two patriots whose

birthdays are celebrated this month.

Washington and Lincoln. He spoke of

the similarity of the problems facing

Washington in his day and of his

heroic stand for the things he believed

right. He spoke of the gentle kind-

ness of word and deed that character-

ized the life of Abraham Lincoln and

made him the best loved American

and referred to him as a man who

had mastered the art of conversation.

The famous old clubs, organized es-

pecially for the purpose of promoting

the art of conversation, were recalled

by Dr. Prouditt who said the present

tendency to substitute light and mean-

ingless entertainment for conversation

at all social affairs is doing much to

and William, at home, and three

grandchildren.

Funeral services will be held at St.

Brigid's Catholic Church, in Xenia,

Monday morning at 9 o'clock, with

burial in St. Brigid's Cemetery.

VACCINATION MADE PERMANENT ORDER IN PUBLIC SCHOOLS

Vaccination of all school children was made a permanent requirement of all children now in school and all children entering school in the future, by the terms of a resolution passed Thursday night by the board of education.

The resolution is permanent assurance that the vaccination order placed in effect at the request of health authorities more than a week ago to check the spread of an incipient smallpox epidemic, will not be rescinded.

The resolution makes a certificate of vaccination from a reputable physician a permanent requirement for entrance in the public schools of the city unless such a certificate is already on file. The vaccination order as originally adopted required vaccination as a temporary measure, and several children have remained away from school until the epidemic should pass rather than submit to vaccination. The board of education feels the present arrangement will prevent the spread of an epidemic among school children in the future. The resolution reads:

Whereas, most of the children of the Xenia City Schools have complied with the vaccination order recently issued,

"Therefore, be it resolved that the board make no change in the order and, furthermore, that the same remain permanently in force to the end that all children who enter school at the beginning of the year or at any time during the school year present certificates of vaccination from a reputable physician unless such a certificate is already on file in the office of the schools. This action is deemed necessary as a means of preventing a recurrence of a situation which has been presented within the past few weeks."

Members H. S. Lesourd, Jacob Kany, Harry D. Smith and L. A. Wagner voted "yes" on the resolution, Louis Clark being absent. He is said to be favorable to the action however.

How to Tell a Woman's Age By Her Hands

A noted beauty specialist recently said that she could invariably judge a woman's age by her hands. Worry and hard work often shows in the hands when it does not show in the face. For this reason more attention should be given to the hands as they are really the true marks of refinement and the tellers of our age. Any woman can have beautiful, white, soft, pretty hands, regardless of the work she has to do, if she will simply spend a minute or two just before retiring rubbing a little plain ice-cream on them. In the morning she will be greatly surprised at the pleasant transformation that has been wrought by even a single application. Ice-cream is made from a Japanese product that is simply marvelous for its beautifying properties whether used on the hands or face. Regardless of what kind of work a woman does, she should have pretty hands. As the hands if neglected are bound to show the hardwork and worry of our lives. A few applications will actually make any woman proud of her hands and skin. Ice-cream costs little and is sold and recommended by good druggists everywhere. Adv.

WOULD RATHER FIGHT THAN WORK

"I suffered for years with stomach trouble and could not eat and just hated anyone to say work to me. I would rather fight. Since taking a course of May's Wonderful Remedy I actually want to work, and talk about eat, I am the last one to leave the table now." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. What folly to suffer—Colds

A cold can be checked in 24 hours. The fever and headache can be ended. Even La Grippe can be stopped in 3 days.

Millions have proved that. Your druggist guarantees it. Your own neighbors will certify it.

Then why let colds linger? They mean both discomfort and danger. Millions are wrecked by results of colds.

The right way, the best way is with Hill's Cascara-Bromide-Quinine. The result of years of research.

A treatment so perfect that 25 years have developed no way to improve it.

It stops a cold

in a day. But it does far more. It removes the poison caused by colds. It restores vitality to the whole system. In the quickest, surest way men know it brings one back to normal.

Millions have proved that. Your own neighbors are among them. No one who knows Hill's could ever be induced to use anything else for a cold.

Don't take chances with a cold. Get the best help men know, and the genuine.

And start promptly. Every hour you delay makes the cold harder to

cure.

BOYS ESCAPE FROM OFFICER ON TRIP TO REFORM SCHOOL

Ralph Terrell and Ralph Coates, both aged 14, escaped from J. W. Rogers, field man of the Boys' Industrial School, Lancaster, O., at the Pennsylvania Railroad depot Thursday afternoon when he was taking them to continue indefinite terms on juvenile delinquency charges.

A third boy, Robert Terrell, failed to make good his attempt to escape and was taken to the reformatory. Juvenile Court authorities instituted a search for the two boys Friday.

As Rogers led the boys into the station, the three scattered in different directions and he was unable to recapture but the one. Rogers wired local authorities from Columbus of the escape.

The youth were re-committed to the Lancaster institution several weeks ago in Juvenile Court when they admitted aiding in the burglaries of the Dunkel grocery. They had previously been paroled from Lancaster.

Church, a large body of friends accompanied the body of Russell Connor to Jamestown, where another service was held at the Church of Christ, with the pastor in charge.

Since moving here about a year ago the family has attended the Friends Church and six boys, members of the Sabbath School, acted as pall bearers. They were, Carl Conner and Homer and Carl Evans, Raymond Carr, Walter Mitchell and Herman Jones.

EFFORT IS MADE TO GET DIMMITT CASE IN SUPREME COURT

Calvin Dimmitt, accused of illegal parentage has filed a motion in the State Supreme Court through his attorney, L. T. Marshall, for an order directing the Greene County Court of Appeals to certify its record in the case of The State of Ohio ex rel Helen Milburn.

Dimmitt lost a decision in both the Common Pleas Court and Court of Appeals and was committed to the Greene County Jail to serve a term. Attorneys for the girl brought suit against Dimmitt for non-compliance with the judgment and held that a \$500 bond put up for the defendant by D. O. Dimmitt and Charles Carroll, others named in the suit, should be forfeited.

The Common Pleas Court verdict favored the defendant in that he had served a term in jail. Attorneys for the plaintiff appealed the decision to the Appellate Court which reversed the Common Pleas decision.

An attempt is now being launched by Dimmitt to have the State Supreme Court give a ruling on the case. Attorneys Charles Darlington and Frank Dean represent the girl.

PULL DOWN HILL
Yorkville, Feb. 20—When King Winter scoffed the law of gravitation out of business here recently during a heavy snow, mule-power was used in restoring Sir Isaac Newton's popular statute to its old time power. Tracks leading beneath a mine tippie here were blocked so badly by snow that the cars could not be persuaded to drop down the grade as needed. Usually a plumb bar moves them sufficiently without halting mine operations. When snow overcame the effect of the grade produced gravity, two mules were hitched to the big railroad gondolas and the cars dragged to position.

SILHOUETTES TO BE USED FOR SERMON

The Rev. Wm. H. Tilford, of the Presbyterian Church, will use a rather different method of illustrating his sermon points next Sunday evening. He has prepared a number of cloth pictures sometimes called "Tag Pictures," including some silhouettes by the Austrian Artist Grossack, which Mr. Tilford has copied and enlarged. The series also include several original silhouettes in cloth by the speaker. The impressions of the pictures are helped by the use of a spot light of different colors, which gives depth to many of these silhouettes. This service will start at 7:00 p. m.

GASOLINE PRICE IS AGAIN SOARING UP

A third boost in the price of gasoline within the last few weeks was announced to motorists filling their gas tanks at local stations Thursday. Effective Thursday, the Standard Oil Company announced that the price of gasoline a gallon had been increased to one and one half cents. The latest price quotes the auto fuel at 20 1/2 cents per gallon.

The first increase several weeks ago raised the price one cent and a similar increase of one cent came closely on the heels of the first.

YOUNG MEN'S CLUB FORMED IN XENIA; QUARTERS LEASED

A young men's club, with fourteen members already enrolled and officers for the ensuing year installed, will meet Tuesday day evening at its quarters above the Greene County Auto Sales, West Main Street, for the first time to select a name.

The rooms were leased from Henry L. Binder, owner of the building, and consist of two large rooms and shower baths.

The club is composed of young men of the city and is not affiliated with any fraternities or lodges, it is said.

Painting and decorating work has been completed, and the lounge and furnished in a modern style. Shower baths have also been installed.

Officers were recently elected as follows: Robert Hamlin, president; Norbert McCallister, vice-president; Clark Eckerle, secretary-treasurer; and Wendell Smith, sergeant-at-arms. Business meetings will be held every Tuesday night.

A campaign will soon be launched for members.

COMPANIES MUST FILE TAX RETURNS

All incorporated companies in the county must file personal property tax returns for 1925 by March 1 with the county auditor it was announced Thursday.

Failure to comply with this law will be followed by 50 per cent penalties, County Auditor R. O. Wead declared Thursday. As was the case on January 1, tax listing day, returns must be made accompanied by the general balance sheet.

Mailing of blanks to the nearly eighty-five incorporated companies in the county was made prior to January 1, but failure to file on the grounds that the company did not receive a blank will not be counted as a sufficient excuse, it is said.

Blanks may be obtained at the county auditor's office in the Court House on application. It was announced.

POSTOFFICE CLOSED

Because Washington's birthday, a legal holiday, falls on Sunday this year, the post office will observe the holiday Monday and will close all departments except to dispatch mail as usual and take care of incoming mail. There will be no delivery by city or rural carriers that day. The lobby will be open all day as usual, according to C. S. Frazer, postmaster.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action: it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. (Adv.)

—to regain Strength

—brings joy to you and your friends.

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body.

More red-blood-cells! S.S.S. aids Nature in building them by the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and going appearance.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

One Wife on Approval

by VIOLET DARE

WHO'S WHO AND WHAT'S HAPPENED

CYNTHIA AND JIM LELAND return from their honeymoon to his home town, where his mother promptly begins to try to make Cynthia over. She has accepted the girl merely on approval. Cynthia finds it difficult to get along with her sister-in-law.

LOUELLA GRAY, also, but likes her brother-in-law, Stanley. She meets

NOEL GARDNER while her husband is out of town on business partly concerned with some bad investments that his mother has made. Cynthia finds that Gardner controls the stock which Madame Leland has bought and thinks worthless. Cynthia asks him to buy it back from Madame Leland and sell it to her, without letting anyone know.

TODAY'S INSTALMENT

XVIII—A STRANGE SITUATION

FOR a moment Cynthia did not know quite what to do as she faced Noel Gardner on the country club porch. Certainly it

VIOLET DARE

Join her and Cecile Malcolm in their game.

And yet she hesitated. Cecile had said quite frankly that she had known him well before he went abroad, but that she didn't know just how good friends they were now that he had returned. Perhaps Cecile wouldn't want to play with him. Perhaps she'd prefer to see him alone before she associated with him publicly. The dinner party of the evening before had not thrown them together enough to create any difficulty.

"I don't know—I'm waiting for Cecile," Cynthia told him, nervously.

"And you don't know whether she'll want me or not?" she asked with a smile. "I can answer for her. I think I'm sure she won't object. But here she is now, if you'd rather put it up to her."

Cecile ran down the veranda, followed by a caddy with her clubs. She held out her hand to Noel eagerly.

"Noel—don't tell me that you're going to play with us!" she exclaimed with delight. Then to Cynthia: "Noel taught me how to play golf—as well as how to do many other things," with a sideways glance at him that was tinged with malice.

"And as in other things, you didn't need much teaching," he commented. "Shall we begin?"

Cynthia did not enjoy the game. There was another one being played by Cecile Malcolm and Gardner that she could not follow, a conversational game, filled with references to someone named "Helena," with little malicious threats on Cecile's part, followed by what seemed almost like appeals to the man, who obviously was quite uninterested in her, and rather inclined to be annoyed at her persistent attempts to interest him.

Cynthia was glad when the game was over. Gardner drove back to town in his town car, and Cynthia went with Cecile, who sat moodily in a corner, hardly speaking. She did volunteer one bit of information, however.

"I suppose you've heard of Helena, Noel's wife?" she asked. "Oh, you haven't? Well, they were married two years ago, and she died of her wedding day—she was to have married another man. Her people simply raved, of course. They didn't like Noel; he'd never amounted to

much, and the other man was one of the most influential in town. They were right about Helena and Noel—they couldn't get along at all, and last year she went to Paris with her father and mother, and later wrote Noel that she was going to get a divorce.

"He rushed over there, but couldn't make her change her mind. She divorced him, and now he's come back to try to brace up the business that he deserted when he hurried off after her. He's still in love with her, people say—oh, and they're right, too. I'm a fool!" she concluded abruptly, and turned to stare out of the window.

Cynthia was glad to leave Cecile when she arrived at home. She hurried into the house to see if there was any message from Jim. On the table in the hall was a letter; she tore it open, scanned its two pages hurriedly. He wrote to tell her what she had already heard from his mother, that he was going to be gone longer than he had expected, would probably go to Honolulu before he returned.

"It might not be a bad idea for you to close our house and stay with mother while I am away," he added. "The expense of keeping it open is considerable, and although I know that you find it hard to get along with mother, I'm sure that you will love her as I do when you know her

better, and be glad that you took this opportunity to get really acquainted with her."

Cynthia's eyes blazed. She had thought that Jim would suggest that she join him on the Honolulu trip, or at least would regret that she wasn't going to. Instead he calmly planned for her to stay with his mother!

There was to be a dance at her sister-in-law's that evening. She ran upstairs to dress for it, but first unlocked a portfolio that lay on her desk and did some rapid figuring on a desk pad.

"I could just make it," she reflected. "That is, if that stock Noel is going to sell me doesn't cost too much. And Jim certainly can't object if I use my own money!"

She was glad to have the first dance with him.

"Tell me," she began breathlessly. "Just how much will that stock cost?"

"Well—about ten thousand dollars."

"Then—then—" she thought for a moment. She could sell some of the bonds that her father had left her, and buy the stock. She could sell the rest, and carry out the plan she had made that afternoon.

"Do you know of any nice little apartment that are for rent?" she asked Gardner. "I must have one at once—just big enough for me and a maid."

"I certainly do!" he answered. "I've been planning to rent one that I well, that I used to be interested in. If you'll let me, I'll show it to you tomorrow morning. May I call for you at ten?"
